

The brain is arguably the most important organ in the human body. It controls and coordinates actions, allows us to think and feel, and enables us to have memories and feelings – all the things that make us human. That's why it's incredibly important to protect and nourish it.

NAD⁺OVIM[®]
FOCUS + CONCENTRATION

A Breakthrough in Brain Health

A doctor formulated, clinically tested nutraceutical supplement for focus, concentration and cognitive functioning.

INTRODUCING NADOVIM[®]

Just Two Capsules a Day

We simply can't seem to escape it in today's rat race environment. Stress has become common place. Add in oxidative stress, where an imbalance between the production of free radicals and the ability of the body to counteract with antioxidants occurs (due to diet, lifestyle, alcohol, drugs, etc.), and you create an environment where NAD+ is being depleted quickly, and the brain simply isn't getting the energy it needs to function properly.

Nadovim was specially formulated to supply the brain with NAD+ as well as additional therapeutic cognitive effects with just two capsules a day. And with no known side-effects or adverse reactions and noticeable results reported in as little as a few weeks, almost anyone can benefit from its use.

NAD⁺OVIM[®]
FOCUS + CONCENTRATION

60 Capsules
Dietary Supplement

SUPPLEMENT FACTS		
Serving Size: 2 Vegetable Capsules Servings per Container: 30		
Amount Per Serving		% Daily Value
Thiamin (as thiamin HCl)	70 mg	4,667%
Magnesium (as magnesium malate)	150 mg	38%
Proprietary Blend	452 mg	†
Bacopa extract 2:1 (<i>Bacopa monnieri</i>) (leaf)		
Cat's claw extract 4:1 (<i>Uncaria tomentosa</i>) (bark)		
NAD+ (nicotinamide adenine dinucleotide)	200 mg	†
Coenzyme Q10	33 mg	†
Glycine	3 mg	†
Aspartic acid	3 mg	†

† Daily value not established.
Other Ingredients: Cellulose Capsule, Microcrystalline Cellulose, Silica, and Magnesium Vegetable Stearate.

Restore proper brain function with Nadovim

The first bioenergetically selected and enhanced nutraceutical supplement from distinguished integrative physician Thomas K. Szulc, Nadovim is a game-changer in the field of brain health. This potent cognitive enhancer and nootropic formula uses specific, researched ratios and top-quality, proven ingredients that produce multiple positive effects including:

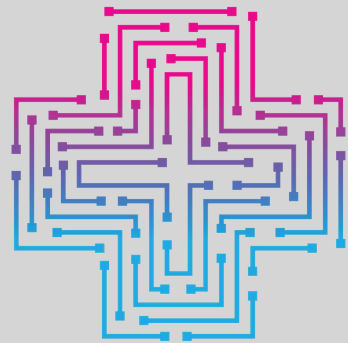

- Improved mental performance
- Enhanced focus
- Increased concentration
- Overall elevated levels of brain energy and functioning

Nadovim is one of the only non-prescription, natural supplements available on the market utilizing NAD+ (nicotinamide adenine dinucleotide) as the foundational ingredient along side other advanced botanicals, minerals and nutrients. Widely known for its anti-aging and neuro-protective properties, NAD+ is heralded as "one of the most important molecules for life to exist"^{**} and "like an 'on' switch for the brain"^{***}.

* David Sinclair, co-director of the Paul F. Glenn Center for the Biology of Aging at Harvard Medical School.
** "NADH Review: Like an 'On' Switch for Brain Energy" - Nootropic Geek, SEPTEMBER 19, 2016

The Benefits

Nadovim is a safe and all natural formula that:

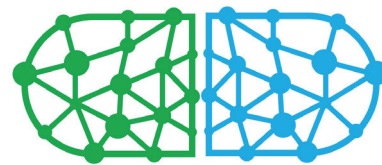

- **Supports overall brain health**
- **Improves cognitive function** (kinase activity, neuronal synthesis, restoration of synaptic activity and nerve impulse transmission)
- **Increases focus, concentration and clarity of mind**
- **Stimulates production of key hormones** (dopamine, serotonin, and noradrenaline), thereby improving mood
- **Reduces stress and cortisol** and acts as an anti-stress agent against acute and chronic stress
- **Improves memory acquisition and retention** as well as problem-solving abilities
- **Enhances mitochondrial function and reduces oxidative stress in the brain**
- **Boosts attention, cognition and impulse control**
- **Acts as a neuro-protectant**

Doctor Tested; Patient Approved

Designed for the modern day patient and the numerous neurological symptoms plaguing most, Nadovim offers a comprehensive and scientifically backed solution.

Why Nadovim?

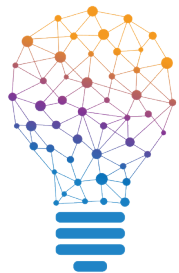

Quality First...Always

Each raw ingredient is tested by our medical team for purity, potency and energetic qualities that allow for maximal efficacy. In addition, Nadovim is produced in a state-of-the-art, FDA-approved pharmaceutical development and nutraceutical laboratory and third-party certified for adherence to Good Manufacturing Practices (GMPs) by NSF, widely recognized as the most stringent of certification parties in the industry.

A Synergistic Brain Formula

While other supplements may capitalize on one or two main ingredients and lean on quantity over quality, Nadovim takes a different approach. Utilizing specific ratios (down to the milligram) of potent cognitive enhancing ingredients that include coenzymes, herbs, minerals, amino acids and vitamins, Nadovim maximizes absorption and bioavailability for improved results and a synergistic effect.

Clinically Proven and Designed by Doctors, not Investors

Most supplement brands rely on technicians and investors to create a marketable product. Nadovim was based on leading physicians' experiences, an extensive R&D process, and the clinical results of patients with serious brain disorders. In one such research study from the *Birkmayer Institute for Parkinson Therapy* in Vienna, Austria, NAD+ (the main ingredient in Nadovim) was administered to 205 patients suffering from depression with 93% of patients exhibiting a beneficial clinical effect.

The Formula

NAD+ Nicotinamide Adenine Dinucleotide

An incredibly important coenzyme and fundamental mediator of brain function, NAD+ is one of the most current researched compounds and has been shown to restore cellular production of energy (ATP), repair DNA (PARP), and increase tankyrase activity.

Cat's Claw *Uncaria tomentosa*

A South American vine with neuroprotective properties, this natural ingredient has been shown to increase brain-derived neurotrophic factor, fight inflammation and free radical damage, repair DNA, alleviate depression, and improve cognition and focus.

Other Ingredients

Magnesium (*Magnesium malate - a mineral*), Thiamin (*Thiamin HCl - also known as Vitamin B1*), Glycine (*an amino acid*), and Aspartic Acid (*a natural proteinogenic amino acid*).

Other natural ingredients found in the vegetable capsule and for stability of the formula include: Cellulose Capsule, Microcrystalline Cellulose, Silica, and Magnesium Vegetable Stearate.

Bacopa *Bacopa monnieri*

A medicinal herb used in Ayurveda, the plant has been researched and found beneficial for several brain-related health concerns, including Alzheimer's disease, memory loss, anxiety, attention deficit-hyperactivity disorder (ADHD) symptoms, and depression.

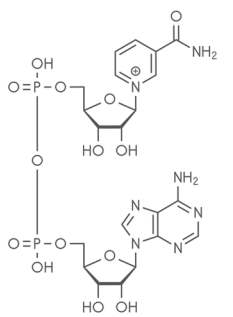

CoQ10 *Coenzyme Q10*

Known as a cornerstone ingredient of any brain-health supplement, evidence shows CoQ10's has protective effects in the brain and nervous system. This compound also works synergistically with NAD+ to improve effectiveness and absorption.

What is NAD+?

As we grow older, certain genes can be triggered that accelerate degenerative aging processes. This can result in symptoms such as chronic fatigue, loss of mental clarity, depression, stress, anxiety, and various other chronic illnesses. **A critical factor in this process is a coenzyme by the name of nicotinamide adenine dinucleotide (NAD+), that enables the transfer of energy from the foods we eat to vital cell functions, especially in the brain.** Every cell in the body needs it. The problem comes when NAD+ levels begin to decline, either due to lifestyle, diet, use of drugs or alcohol, stress, toxins, or a host of other factors.

By reintroducing a high quality, stable form of NAD+ along with the other ingredients listed above, Nadovim provides a remarkable solution to a growing problem - namely declining brain function.

What Can Nadovim Help With?

- **Memory Loss**
- **Poor Concentration**
- **Brain Fog**
- **Problems with Coordination**
- **Fatigue**
- **Depressive Mood**
- **Trouble Finding Words**
- **Mental Processing**
- **Neurodegenerative Disorders**
- **Attention Deficit**
- **Confusion**
- **Aging**
